Set up your computer

1. Connect the power adapter and press the power button.

2. Finish operating system setup.
   
   **For Ubuntu:**
   Follow the instructions on the screen to finish setup.

   **For Windows:**
   Follow the on-screen instructions to complete the setup. When setting up, Dell recommends that you:
   
   - Connect to a network for Windows updates.
   
   ![NOTE](https://example.com) **NOTE:** If connecting to a secured wireless network, enter the password for the wireless network access when prompted.
   
   - If connected to the internet, sign-in with or create a Microsoft account. If not connected to the internet, create an offline account.
   
   - On the **Support and Protection** screen, enter your contact details.
3 Locate and use Dell apps from the Windows Start menu—Recommended

Table 1. Locate Dell apps

- **Dell Product Registration**
  Register your computer with Dell.

- **Dell Help & Support**
  Access help and support for your computer.

- **SupportAssist**
  Proactively checks the health of your computer’s hardware and software.
  
  **NOTE:** Renew or upgrade your warranty by clicking the warranty expiry date in SupportAssist.

- **Dell Update**
  Updates your computer with critical fixes and important device drivers as they become available.

- **Dell Digital Delivery**
  Download software applications including software that is purchased but not pre-installed on your computer.

4 Create recovery drive for Windows.

  **NOTE:** It is recommended to create a recovery drive to troubleshoot and fix problems that may occur with Windows.

  For more information, see [Create a USB recovery drive for Windows](#).
Create a USB recovery drive for Windows

Create a recovery drive to troubleshoot and fix problems that may occur with Windows. An empty USB flash drive with a minimum capacity of 16 GB is required to create the recovery drive.

**NOTE:** This process may take up to an hour to complete.

**NOTE:** The following steps may vary depending on the version of Windows installed. Refer to the Microsoft support site for latest instructions.

1. Connect the USB flash drive to your computer.
2. In Windows search, type Recovery.
3. In the search results, click Create a recovery drive. The User Account Control window is displayed.
4. Click Yes to continue. The Recovery Drive window is displayed.
5. Select Back up system files to the recovery drive and click Next.
6. Select the USB flash drive and click Next. A message appears, indicating that all data in the USB flash drive will be deleted.
7. Click Create.
8. Click Finish.

For more information about reinstalling Windows using the USB recovery drive, see the Troubleshooting section of your product's Service Manual at www.dell.com/support/manuals.

Reinstall Windows using a USB recovery drive

**CAUTION:** This process formats the hard drive and removes all data on your computer. Ensure that you back up data on your computer before beginning this task.
NOTE: Before reinstalling Windows, ensure your computer has more than 2 GB of memory and more than 32 GB of storage space.

NOTE: This process may take up to an hour to complete and your computer will restart during the recovery process.

1. Connect the USB recovery drive to your computer.
2. Restart your computer.
3. Press F12 after the Dell logo is displayed on the screen to access the boot menu. A Preparing one-time boot menu message appears.
4. After the boot menu loads, select the USB recovery device under UEFI BOOT. The system reboots and a screen to Choose the keyboard layout is displayed.
5. Choose your keyboard layout.
6. In the Choose an option screen, click Troubleshoot.
7. Click Recover from a drive.
8. Choose one of the following options:
   - Just remove my files to do a quick format.
   - Fully clean the drive to do a complete format.
9. Click Recover to start the recovery process.
Views

Front

1. **Power and battery-status light/hard-drive activity light**
   Indicates the battery-charge status or the hard-drive activity.

   **NOTE:** Press Fn+H to toggle between the power and battery-status light, and hard-drive activity light.

   **Hard-drive activity light**
   Turns on when the computer reads from or writes to the hard drive.

   **Power and battery-status light**
   Indicates the power and battery-charge status.
   - **Solid white** — Power adapter is connected and the battery has more than 10% charge.
   - **Amber** — Computer is running on battery and the battery has less than 10% charge.
   - **Off** — Power adapter is connected and the battery is fully charged.
   - Computer is running on battery and the battery has more than 10% charge.
   - Computer is in sleep state, hibernation, or turned off.

Left

1.  
2.  
3. 
1 **Power-adapter port**
Connect a power adapter to provide power to your computer and charge the battery.

2 **HDMI port**
Connect a TV or another HDMI-in enabled device. Provides video and audio output.

3 **USB 3.1 Gen 1 ports (2)**
Connect peripherals such as external storage devices and printers. Provides data transfer speeds up to 5 Gbps.

**Right**

1 **SD-card slot**
Reads from and writes to the SD card.

2 **Headset port**
Connect headphones or a headset (headphone and microphone combo).

3 **USB 2.0 port**
Connect peripherals such as external storage devices and printers. Provides data transfer speeds up to 480 Mbps.

4 **Optical drive (optional)**
Reads from and writes to CDs and DVDs.

5 **Optical-drive eject button**
Press to open the optical drive tray.

6 **Optical-drive emergency eject pinhole**
Used to eject the optical-drive tray manually if the optical-drive eject button fails.

NOTE: For more information about manually ejecting optical-drive trays, see the knowledge base article SLN301118 at www.dell.com/support.
7 **Security-cable slot (for Kensington locks)**
Connect a security cable to prevent unauthorized movement of your computer.

**Base**

1 **Left-click area**
Press to left-click.

2 **Touchpad**
Move your finger on the touchpad to move the mouse pointer. Tap to left-click and two finger tap to right-click.

3 **Right-click area**
Press to right-click.

4 **Power button**
Press to turn on the computer if it is turned off, in sleep state, or in hibernate state.
Press to put the computer in sleep state if it is turned on.
Press and hold for 4 seconds to force shut-down the computer.
NOTE: You can customize the power-button behavior in Power Options. For more information, see *Me and My Dell* at [www.dell.com/support/manuals](http://www.dell.com/support/manuals).

**Display**

1. **Camera**
   Enables you to video chat, capture photos, and record videos.

2. **Camera-status light**
   Turns on when the camera is in use.

3. **Microphone**
   Provides digital sound input for audio recording, voice calls, and so on.
1 **Battery**
Supplies power to the computer. It enables the computer to work without connecting to an electrical outlet for a limited time.

2 **Regulatory label (in battery bay)**
Contains regulatory information of your computer.

3 **Service Tag label**
The Service Tag is a unique alphanumeric identifier that enables Dell service technicians to identify the hardware components in your computer and access warranty information.

4 **Battery-release latch**
Lock/unlock the battery in the battery bay. Slide the latch to the unlock position, to release the battery.

Getting help and contacting Dell

Self-help resources

You can get information and help on Dell products and services using these self-help resources:

Table 23. Self-help resources

| Information about Dell products and services | www.dell.com |
| Dell Help & Support app | |
| Tips | |

Contact Support

In Windows search, type Contact Support, and press Enter.

Online help for operating system

www.dell.com/support/windows
www.dell.com/support/linux

Troubleshooting information, user manuals, setup instructions, product specifications, technical help blogs, drivers, software updates, and so on.

Dell knowledge base articles for a variety of computer concerns.

1. Go to www.dell.com/support.
2. Type the subject or keyword in the Search box.
3. Click Search to retrieve the related articles.

Learn and know the following information about your product:

- Product specifications
- Operating system

See Me and My Dell at www.dell.com/support/manuals.
• Setting up and using your product
• Data backup
• Troubleshooting and diagnostics
• Factory and system restore
• BIOS information

To locate the Me and My Dell relevant to your product, identify your product through one of the following:

• Select Detect Product.
• Locate your product through the drop-down menu under View Products.
• Enter the Service Tag number or Product ID in the search bar.

Contacting Dell

To contact Dell for sales, technical support, or customer service issues, see www.dell.com/contactdell.

✿ NOTE: Availability varies by country and product, and some services may not be available in your country.

✿ NOTE: If you do not have an active internet connection, you can find contact information on your purchase invoice, packing slip, bill, or Dell product catalog.
