Resources and support

Latest Release Notes

To access the latest Release Notes for this version:

2. Click Dell Power Manager.
NOTE: Dell provides several online and telephone-based support and service options. If you do not have an active Internet connection, you can find the contact information on your purchase invoice, packing slip, bill, or the Dell product catalog. Availability varies by country and product, and some services may not be available in your area.

To contact Dell for sales, technical support, or customer-service issues:

1. Go to dell.com/contactdell.
2. Select your country or region from the interactive world map. When you select a region, the countries for the selected regions are displayed.
3. Select the appropriate language under the country of your choice.
4. Select your business segment. The main support page for the selected business segment is displayed.
5. Select the appropriate option depending on your requirement.

NOTE: If you have purchased a Dell system, you may be asked for the Service Tag.
