2. Find manuals and documents
This release enables users to upgrade to the latest version of SupportAssist for Business PCs without administrator rights. It also provides a graphical view of number of systems with current service plans and SupportAssist versions. Additionally, on the My Assets page, you can also view the version of SupportAssist installed on your system and update the site name based on your requirement.

Topics:
- Version
- Release date
- Priority and recommendations

Version
2.1.4

Release date
February 2020

Priority and recommendations
Recommended: Dell recommends applying this update during your next scheduled update cycle. The update contains feature enhancements or changes that help keep your system software current and compatible with other system modules (firmware, BIOS, drivers, and software).

NOTE: If the systems in your organization are running SupportAssist for Business PCs version 2.0.1 or earlier, ensure that you upgrade to the latest version. Upgrading to the latest version enables you to receive full benefits of the updated SupportAssist features and refreshes the required API keys.
SupportAssist is supported on the following Dell systems:

- **Laptops and desktops:**
  - Latitude
  - Precision
  - OptiPlex
  - Inspiron
  - XPS
  - Alienware
  - Vostro

- **Gateways and Embedded PCs:**
  - Edge Gateways
  - Embedded Box PCs

**Topics:**

- Minimum system requirements

## Minimum system requirements

The following are the minimum requirements for the systems on which you deploy SupportAssist:

<table>
<thead>
<tr>
<th>Table 1. Minimum requirements</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Particulars</strong></td>
</tr>
<tr>
<td>Operating system</td>
</tr>
<tr>
<td></td>
</tr>
<tr>
<td></td>
</tr>
<tr>
<td></td>
</tr>
<tr>
<td></td>
</tr>
<tr>
<td></td>
</tr>
<tr>
<td></td>
</tr>
<tr>
<td></td>
</tr>
<tr>

</tr>
<tr>
<td></td>
</tr>
<tr>
<td>Software</td>
</tr>
<tr>
<td></td>
</tr>
<tr>
<td>Installed memory</td>
</tr>
<tr>
<td>Network</td>
</tr>
<tr>
<td></td>
</tr>
</tbody>
</table>

**NOTE:** SupportAssist also uses port 9012. If this port is not available, SupportAssist uses another available port.
<table>
<thead>
<tr>
<th>Particulars</th>
<th>Requirements</th>
</tr>
</thead>
<tbody>
<tr>
<td>Elevation of the SupportAssistUI.exe launch command must be enabled on the systems</td>
<td></td>
</tr>
<tr>
<td>The systems must be able to connect to the following destinations:</td>
<td></td>
</tr>
<tr>
<td>• <a href="https://apidp.dell.com">https://apidp.dell.com</a></td>
<td></td>
</tr>
<tr>
<td>• <a href="https://fuslite.dell.com/FUSLite/api/2.0">https://fuslite.dell.com/FUSLite/api/2.0</a></td>
<td></td>
</tr>
<tr>
<td>• <a href="https://techdirect.dell.com">https://techdirect.dell.com</a></td>
<td></td>
</tr>
<tr>
<td>• <a href="http://downloads.dell.com">http://downloads.dell.com</a></td>
<td></td>
</tr>
<tr>
<td>• <a href="https://www.dell.com">https://www.dell.com</a></td>
<td></td>
</tr>
<tr>
<td>• <a href="https://agent-api.sa.insights.dell.com">https://agent-api.sa.insights.dell.com</a></td>
<td></td>
</tr>
</tbody>
</table>

**NOTE:** To verify if the above destinations are connecting to the systems, perform the following steps:

1. From the programs menu, search and open the Command Prompt application.
2. Type `tracert <destination address>` and press Enter.
   
   For example, `tracert apidp.dell.com`
   
   • If the systems can connect to the destination, appropriate results are displayed.
   • If the systems are unable to connect to the destination, an error message is displayed.

**NOTE:** To allow communication, verify the firewall settings on the systems.

| Web browser | Latest versions of Google Chrome, Microsoft Edge, Internet Explorer, or Mozilla Firefox |
New and enhanced features

- Support for auto-update of SupportAssist for users logged in without administrator rights.
- A graphical view of PCs with current service plans and SupportAssist versions on the My Assets page.
- View the version of SupportAssist installed on your PCs on the My Assets page.
- Update the site name from the Organize Assets and Groups page.
Known issues

Service does not start automatically

Description: When you uninstall Dell SupportAssist, if you cancel the uninstallation process while it is running, the Dell SupportAssist for Business PCs service does not start automatically.

Workaround:
1. Press Start and R key, type services.msc in the search box, and then click Enter.
2. Right-click Dell SupportAssist for Business PCs, and click Start.

Tracking number: SACB-1018
Version affected: 1.5.0 and later

Scan progress is not displayed

Description: When a warning alert is present, on clicking, "Optimize My PC" notification, all the system optimizations are run. However, the scan progress is not displayed as the tiles are disabled.

Workaround:
Before you click the notification, open the SupportAssist user interface and click Skip Now.

Tracking number: SACB-1019
Version affected: 2.0.1 and later

Services are automatically stopped

Description: If SupportAssist is deployed on Latitude 7390 2-in-1 systems running within System Center Configuration Manager Client Health (CMCH), the Dell Data Vault Service API, Dell Data Vault Collector, and Windows Management Instrumentation services are sometimes automatically stopped. When these services are stopped, support request creation and SupportAssist insights are not generated for these systems.

Workaround: None

Tracking number: DDV-89
Version affected: 2.0.1 and later

Installed BIOS updates recommended

Description: During a Drivers & Downloads scan, SupportAssist recommends the same BIOS update that you have already installed on the system.

Workaround: After installing a BIOS update using SupportAssist, restart the system to complete the installation process, and then initiate a new driver scan.

Tracking number: SACB-753
Version affected: 2.1.1 and later
## Download CSV option downloads the predefined columns data

<table>
<thead>
<tr>
<th>Description</th>
<th>The Download CSV option downloads the predefined columns data instead of the user-selected columns data.</th>

</tr>
</tbody>
</table>
Limitations

- SupportAssist is not supported on virtual machines.
- SupportAssist does not automatically perform diagnostic tests on components that require user intervention.
- PC insights is available for systems running the Windows 10 operating system. For systems running the Windows 7 or 8 operating systems, the functionality may not work as expected.
NOTE: If you do not have an active Internet connection, you can find contact information about your purchase invoice, packing slip, bill, or Dell product catalog.

Dell provides several online and telephone-based support and service options. Availability varies by country or region and product, and some services may not be available in your area.

Topics:

- Contact Dell for sales, technical support, or customer service issues
- Find manuals and documents

Contact Dell for sales, technical support, or customer service issues

1. Go to www.dell.com/support.
2. Select your country or region in the selection list at the bottom of the page.
3. Click Contact Support and select the appropriate support link.

Find manuals and documents

1. Go to www.dell.com/support.
2. Click Browse all products.
3. Select the appropriate product category and then select the desired product.
4. To view or download the manuals and documents, click the DOCUMENTATION tab.

NOTE: You can also directly access the manuals and documents for Serviceability Tools from www.dell.com/serviceabilitytools.
